GENERAL INFORMATION ABOUT THE SCHOOL

Founded in 1588 by Royal Charter, Spalding Grammar School was located within a part of Spalding Parish Church, called St Thomas's Chapel, until the 19th century. The School moved to its current site in 1881 and doubled in size when it amalgamated with Moulton Grammar School which closed in 1939. The School now occupies an enviable, spacious site, including 17 acres of Governor-owned playing fields, five minutes from the town centre. Teaching accommodation has been significantly improved and developed in the last twenty years, incorporating a large sports complex, a new English block and Library, a dedicated Business Centre, extended Sixth Form facilities and a multi-purpose Atrium. The School was awarded Academy status in 2013.

The School is academically selective and admits the top 25% of the population as determined by standardised verbal and non-verbal reasoning tests. There are generally five forms of entry with an admission number of 150 pupils. Pupils are taught mainly in mixed-ability groups throughout the School, although setting does operate in mathematics from Year 8, and in English, modern languages and science from Year 9.

There is a common curriculum for the first three years, in which pupils study the National Curriculum core and foundation subjects. Every student studies a modern foreign language as well as Latin. Pupils also engage in lessons in core physical education and PaCE (Personal and Careers Education).

At GCSE, the majority of pupils will take ten subjects, including four options. Depending on ability, some pupils will take a second qualification in mathematics; others will take dual award science, rather than three separate disciplines. Pupils continue to pursue both core physical education and PaCE.

The Sixth Form, which is coeducational, has grown in recent years and now attracts many students seeking to join us from other schools. At present there are over 270 students in the Sixth Form, of which approximately one quarter are female. Our curriculum model, in light of post-16 reform, is that all students take three A-level courses, alongside an enrichment elective in Year 12.

The School aims to develop individuals, both personally and academically, and has thus implemented a vertical form system which allows all year groups to come together each day and support each other through a variety of structured activities such as mentoring, personal study, presentations and debating sessions. Evidence suggests that this system is having a positive impact on both lower and upper school students; it helps to develop constructive personal relationships, the ability to co-operate and work with others and the capacity to face the challenges of the wider world. All teachers, as well as some members of the support staff, carry out the role of Vertical Form Tutor.

A large part of what goes on at the School happens outside the classroom. The School's main sports are Rugby, Football, Hockey, Athletics and Cricket, but numerous other options are available. The School competes very successfully with many other schools in the county and beyond. There is a large range of enrichment opportunities for all students, including the Duke of Edinburgh Award Scheme where students are developed through the challenges and opportunities that this affords. We also offer a skiing trip each year.

The School's principal aim is to ensure that all students and staff have every opportunity to attain their potential intellectually, socially and personally. Relationships between staff and students of all ages are exemplary, and there is a friendly and orderly atmosphere which, in combination with a stimulating academic environment, develops the qualities that lead to successful examination results.

Staff have the use of a modern staff room, complete with catering and reprographic facilities. Many staff who join the School speak of the warmth with which they have been received and they consider it a very friendly place to work. Continuing Professional Development for the staff is of paramount importance and there are many opportunities for individuals to both develop their practice and advance their career. The teaching and learning environment is supported by a dedicated team of support staff who work in harmony with the teaching staff to create a mutually supportive work place.

The School operates as a cohesive community. The Parents' Association is very strong; it enriches the life of the School through a wide variety of events, as well as raising in excess of £20,000 for the School each year. Support for charities and community projects is also very positive, with about £15,000-20,000 raised each year. The Governing Body is also highly supportive of the School and its members are often a visible presence around the place.

Located in South Holland, Spalding is a pleasant market town in a largely rural area within easy reach of Peterborough and the A1. The people are very friendly and the pace of life is relaxed. There is a local entertainment venue, the South Holland Centre, in the town which provides a variety of live entertainment. House prices compare very favourably with those in most other parts of the country and there are a number of primary schools within the local area which provide for all abilities and faiths. The town is also served by our sister grammar school (Spalding High School) and a comprehensive school.

THE BUSINESS & ECONOMICS DEPARTMENT

Business and Economics is a dynamic and vibrant department with a strong academic track record. Situated in a purpose-built block, the department has two well equipped classrooms with SMART boards and suite of laptops for each teaching room. The department is well organised with adapted schemes of work along with a bank of interactive teaching materials which stretch our students. We are able to provide every student with a course textbook to support their studies. We offer extracurricular provision which gives students opportunities in business and economics but especially those interested in enterprise and entrepreneurship.

The department delivers the Edexcel GCSE and A level Business course. Economics follows the Edexcel (A) A level specification. Uptake across the key stages is very strong and is one of the most popular option subjects. There are currently 190 GCSE business students, four sets in each Year group. We have thriving numbers for Business and Economics in the Sixth Form and we enjoy collaborative work with our sister school, Spalding High School at this level.

The department supports careers in the curriculum. We have built links with local businesses which enables us to invite people in during the academic year to talk about their careers and the opportunities available to students in terms of work placements and apprenticeships. We have secured talks from the Bank of England along with offering educational visits to JLR and JCB.

Students make excellent progress in their studies, often exceeding their target grades. We are able to provide Sixth Form students with a quiet working area in the foyer between teaching rooms, which allows students to be supported through intervention and actively learning from each other. As a department we offer intervention during lunchtimes to support students through their studies and during their examination period.

As a department we pride ourselves in the experience provided to all our students; many go on to study Business and Economic related courses at university. Students have kept in touch and offered their time to speak to current students.

JOB DESCRIPTION

Salary:

£32,916 - £51,047 depending on experience

Accountable to:

Head of Business & Economics

Responsible for:

Teaching Business and Economics throughout the School.

Achieving the highest possible standards from students, maintaining and developing subject-specific knowledge and skills and contributing to department and pastoral teams within the School.

Specific Responsibilities:

- a) Curriculum: you will teach Business and/or Economics throughout the School. You will be responsible for maintaining good subject knowledge in those disciplines taught.
- b) Teaching and Learning: you will plan and teach well-structured lessons that promote subject-specific skills and knowledge, a love of learning and intellectual curiosity. You will develop and implement a varied and effective range of teaching strategies that promote the highest standards of students' learning within your lessons. You will differentiate in your teaching to both stretch and challenge the most able while supporting less able students.
- c) Students' Progress: you will be accountable for the progress of students in your classes. You will be aware of students' prior attainment and current achievement, encourage students to set aspirational targets and guide each student to reflect on their progress and take agreed steps to improve.
- d) Reporting: you will communicate effectively with parents with regard to students' progress at formal reporting periods and when required.
- e) Professional Development: you will take responsibility for improving your teaching and students' learning through appropriate internal and external development opportunities. Your development will be managed by your Head of Department through the Appraisal process.
- f) Teaching room: you will ensure your specialist teaching room is attractive and well-kept to create a safe and stimulating learning environment.
- g) Behaviour Management: you will have high expectations of students' behaviour for learning as set out in the school's Code of Conduct and enforced through the Behaviour Policy.
- h) Broader contribution: you will be prepared to make a contribution to the broader development of students through, for example, enrichment trips or activities.
